Dear Parent/Carer

I am writing to you once again to remind you about the forthcoming changes to the 697 and 698 morning and evening bus service and the introduction of the new 278 bus service. These changes will all take place on **Monday 9th December 2019**.

As of Monday, the last scheduled bus of each service will not run in the morning nor in the afternoon, therefore there will be children who will have to use the new 278 bus service to get to school and to make their way home from school in the evening.

Please refer to the letter that you will have received from me previously for all the details which I have also attached along with this letter.

I expect the highest standards of behaviour from all students when they travel on the transport network and with the introduction of the 278 there will be no exception.

The advantage of the introduction of the new route means that outside of the normal school times the bus service will run past the school. Therefore, students who are leaving school late in the evening, or indeed students who, for whatever reason are arriving late in the morning, will be able to avail themselves of this service.

I would be most grateful if you would discuss the arrangements for travelling with your child or children and reinforce the importance of appropriate behaviour whilst travelling.

Yours faithfully

Eugene O'Reilly
Deputy Headteacher
